

Submitter: Ashley Lindsay

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Democracy should be accessible to everyone in the United States.

This measure is creating a system of limiting voters access to the polls. We should want more inclusion, not more restrictions.

This bill will hurting working people, rural citizens, those with disabilities, and those with limited transportation.

It will effect my ability to vote (I've voted every election I was eligible to vote) as I live in a rural area and not close to a ballot.

Please kill this bill. Save Democracy.
