Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has experienced increased voter turnout by utilizing vote by mail, and all indications are that fraud is not an issue. Why eliminate a system that is working well and provides a means for all people to vote easily. I especially would be concerned about voter turnout in some of Oregon's rural counties where weather may cause dangerous conditions for traveling to polling places. Please keep Oregon's vote by mail as everyone has the right to vote!
