SB210

Hello,

As a rural Oregon resident, I value the vote by mail system available in this state. It gives time to consider the candidates and issues beforehand, and makes it easy for me to vote without driving long distances. Oregon has one of the highest voter engagement percentages in the country, likely due at least in part to how easy it is to vote. There is also very low incidence of fraud with this method of voting. Please keep this system intact.
