Thank you

Oregon is in a doom loop. We are losing population, respect and hope for the future.

Venezuela was Oregon many years ago. They had jobs, a middle class and hope for a better life.

It's gone now. The wrong visionary for the future, Hugo Chavez concentrated power and destroyed the country.

Oregon is heading to Venezuela. We have concentrated power into one party and they are taking us on a doom loop ride. Crime, unaffordable houses, homelessness, rising taxes sucking the life out of it's people are causing people who can to leave for a more Constitutional state.

Please stop the madness of taxes and regulation.

Don't act like Chuck Shumer who disparages Americans who want to keep the hard earned money that we make.

Thanks
