SB210

I absolutely oppose returning to in-person voting in Oregon. The party submitting this bill has a history of using in-person voting as a means to suppress voters - cutting locations, cutting hours, cutting resources, not giving time off to participate, the list goes on. There is no evidence of any appreciable fraud with mail-in voting and in fact this bill's allowance for mail-in in special cases aligns with that idea. Vote by mail has kept Oregon's participation in the process high and I firmly believe in continuing that.
