SB210

What kind of crazy MAGA, Trump supporting idea is this? Let me see, if we can restrict the vote, we can get more fascists into office, and help support the movement nationwide to inflict an authoritarian government in place of our hard fought and hard won Democracy. We need to remove barriers to vote, as this process, overwhelmingly supported by Oregon voters, accomplished. It would cost a fortune to reestablish in-person voting throughout the State, with, I expect, a much diminished proportion of voters. If you are aging, disabled, live in a rural area far from polling places, this will definitely disenfranchise you. I urge a no vote on this bill.
