

Submitter: Jon Koenes

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Oregon has an amazing mail in system. Staying in my own home, to read research and decide how to vote, and then simply dropping it in the mail is an irreplaceable part of my life. Having to now vote in person would no nothing more than reduce voter turnout, increase management overhead, and overall further distance voters from affecting change through democracy.

This bill should not be passed. It should never have been put on the table.
