

Submitter: Bryan Starr

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I rise in support of this bill. Vote by mail was implemented to increase voter participation in the early 1980's. Over time the participation level has declined to previous levels. For 30 years we have had vote by mail. We need to return to in person voter participation on voting day. This would eliminate illegal citizens from voting and other fraudulent activity. One party has ruled the state of Oregon for far too long.
