Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail has worked for years in Oregon. If something is working, leave it alone! There are many reasons why voting in person on the day of an election excludes certain voters — the disabled, people who can't afford to leave work, someone who happens to be too sick on that day to leave home or is in the hospital. Citizens should all have a voice in America. We should not pass laws to exclude voters from exercising their constitutional rights.
