Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Ever since I moved to Oregon I have been deeply grateful for the vote by mail system. It is significantly easier to participate in our democracy when I don't have to worry about getting time off of work to go to a polling location. Additionally it gives me time to fully read and understand ballot measures etc. I am strongly opposed to any measure that would make in-person voting the default. As with so many other voter bills, this is a thinly veiled voter suppression act. This measure must be stopped for the good of all Oregonians.
