Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail has worked really well in Oregon for many years. It allows every registered voter to vote easily in a time frame which works with whatever else is occurring in their lives. It has very little evidence of fraud. I see no reason to change that system. In-person voting is difficult for many, and impossible for some. Absentee ballots are available, but that process can be cumbersome also. Our current system works. Why change it?
