Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

For the last 25 years I have enjoy the right to vote by mail. I like that I can take my time and research with the pamphlet in the privacy of my home. I also like that a paper ballot is a trail. I strongly feel that paper is the gold standard of voting. Mail in voting is the easiest way to make voting available to citizens in Oregon and beyond. I question why after all these years there would be a switch unless someone is usurping the will of the people. I oppose the switch from mail in ballots to in person voting!
