Measure, Appointment or Topic: HB3884

This is a blatantly unconstitutional bill. Our right to protect ourselves and loved ones against violent criminals is a fundamental and constitutionally protected right. This bill is massive government over reach and in now way should this bill be considered. Our constitutional rights should be protected by our state government not trampled upon by our state government. I fully opposes this bill. Please shut this bill down if not for my rights then for your own rights.
