

Submitter:

Charles Martin

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

In-person voting is too difficult for too many citizens! Especially the elderly and the disabled but also those with children, family caretakers, shift workers, persons who are sick, injured or in hospitals and other medical facilities. Standing and waiting in lines takes up too much time in our modern lives. Please this would mean increases in costs in obtaining locations, equipment, operational costs and trained personnel.it would prohibit those people who are traveling , whether for business or pleasure, and those in the military.
