Our Mail in voting has worked flawlessly for decades. There have been a minuscule amount of issues...

Why, oh why would you want to change things unless, unless you want to suppress and gerrymander the vote.

Oregonians have proven that they do not abuse our vote by mail system. Why would you want to cost our counties more money and citizens more aggravation by trying to force YOUR conspiracy agenda on the rest of us.

I'll quote here because maybe you are too illiterate to know that the supreme court found Oregon vote by mail was in fact the gold standard. The SUPREME COURT chose to leave place previous rulings and here is the quote

"Both the rulings from the District Court and the Ninth Circuit got it right: Oregon's vote by mail system is the gold standard with no widespread voter fraud to speak of," she said. "I'm very pleased to see the Supreme Court leave the lower courts' ruling in place."

The lawsuit claimed – without providing any evidence – that Oregon voters have been disenfranchised by "voting anomalies." The bulk of the suit rested on "2,000 Mules," a 2022 film from far-right commentator Dinesh D'Souza

Keep your conspiracy theories to yourself and stop wasting taxpayers money.
