

Submitter:

Heidi McNamee

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I love mail in ballots! I love being able to do research in the comfort of my home and actually fill out my ballot in a thoughtful manner and then mail it in or drop it off when it is convenient.

I love that my fellow citizens also have this privilege and that no matter what our job schedules, caretaking responsibilities, accessibility issues or other life circumstances we can all have access to the ballot.

There is no need to stand in line. There IS a need for a paper trail. We want accountability AND ease AND a wide voter base of the people. Our current system gives us that. Our efforts should be focused on increasing public awareness & participation, not restricting access.
