Committee: House Committee On Education

Measure, Appointment or Topic: HB3807

Attending a football game should be about the passion, the energy, and the love of the sport—but experiencing racism in that space shatters the sense of unity. The chants, the slurs, the stares—it's a painful reminder that, for some, the game isn't just about competition on the field. No one should have to defend their right to enjoy a match without fear or hostility. Football is meant to bring people together, not tear them apart.
