SB210

Mail-in voting has worked for many years in Oregon without any significant difficulties. Ending this system will disproportionately affect the elderly, people with disabilities, or people with transportation issues. These challenges are designed to prevent people from voting, not to make voting safer. This is an attempt by the Trump administration to corrupt our government. Oregon needs to continue to stand strong on the side of the average US citizen and not cave to the whims of a would-be dictator.
