

This Oregonian is strongly opposed to the unwarranted attacks on our voting system by the trump admin. I've received my ballot by mail for decades, without issues. The only reason it's even come up now, is to circumvent the fact that when every citizen votes, Republicans don't win. Mitch McConnell said these very words in 2017, and their efforts to suppress the vote has only increased to ludicrous levels of corruption & fraud. This citizen is fearful of the direction our country is headed. I'm worried for my Daughter, who isn't like everyone else. Don't be the problem, don't cave to the faux outrage by those who've manufactured a nonexistent threat

Thank you for your consideration.

Sandra Seibel
