

Submitter: Samuel Keller

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety
Response

Measure, Appointment or Topic: HB3197

I am in full support of this measure. As someone who has gone through addiction myself, as a youth, the programs put in place helped me very much to get clean and sober. I personally went through a wilderness treatment program and i feel that we need more funding for places like that, not just wilderness but all SUD treatment programs. Since then, I have been over two years clean.
