

Submitter: Sheryl Kuipers

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB999

We thought we lived in a free country. As our elected officials I encourage you to remember this. How are we free anymore? Does every part of our life, property and business belong to us anymore or to the state? Businesses thrive under less regulation... and suffocate s to death under regulation upon regulation. In the long run you are only hurting everyone involved, both employer and employee. Restrict government overreach. My goodness, allow us to provide housing for our employees.
