

## HB 2583 Support

Our family chose a virtual charter school because my son is brilliant and a competitive motocross rider. Traditional school and hybrid programs did not allow the flexibility for him to compete and train. Virtual charter school (Baker Early College High School) best fits his learning needs, but they're unfairly excluded from crucial Student Success Act funding. HB 2583 corrects this by ensuring equal access to resources while keeping funds within Oregon's community-run schools. It's time to support all students.

My son went to online school during the Covid pandemic and he excelled. He is on track to graduate with enough college credits to be a sophomore in college. The support and options via virtual school has kept my son engaged and participating in his education.

Sincerely,  
Molly Mair
