SB210

We need to have clear accountability in our elections. While mail in voting might be easy, it completely disenfranchises voters intent, with no chain of custody, no accountability in the voter rolls, and a motor voter registration system that is ripe with fraud and data security issues, we must return to in person voting. While this bill must be passed by our elected representatives, it is really a question for what the people of Oregon want. It is incumbent upon this legislature to pass this bill and send it to the voters so that their voices may be heard. Anything less would be a totalitarian power grab over voters rights.
