Senate Committee On Rules

Measure, Appointment or Topic:

SB1046

I like the idea of adding voters from the hunting and fishing community because less hunters are registered voters, which makes no sense because of the Democrat's attack on our 2nd Amendment Rights all the time. Oregon voter rolls are the dirtiest in the country because of unchecked, unverified, and untenable methods of adding people to the rolls already in place.

This further subverts the idea that voter rolls can be trusted. We have people signing up at the DMV, the doctor's office and by adding another method of adding people to vote just makes it worse.

I oppose SB 1046
