Measure, Appointment or Topic: HB3197

This sounds like a great idea! Young people need as much help as possible to not go down the wrong path. As a recovery alcoholic and addict myself I strongly support this program for young people. I generally don't support more taxes as Oregon has one of the highest taxes in the county. Along with the highest drug problems in the county. I'm hopeful that the money will be used wisely to help our young people make better choices.
