

Submitter: Maribella Clark

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB2583

As a 6th-grade student of a virtual public school, I believe every student no matter the age deserves equal access to education funding, regardless of their school type. Baker Web Academy ensures students like me get the resources they need to succeed in field trips, school curriculum, and accomplish hobbies and other activities that they are passionate about. Every school should get funding for field trips and funding for other things that allow all of the students to connect with each other. I think that is important for all students to have friends their age so that they have other kids and not just their parents to communicate with about stress and troubles. With Baker Web Academy I get freedom and flexibility so that I can do other activities that aren't with my school like Girl Scouts. Just like all the public schools, we deserve funding for all that we do. Let's make education fair for all Oregon students.
