

Submitter:

John Skillman

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is a nonsensical, unethical, and anti-democratic bill. Because this bill is largely motivated by forces OUTSIDE of Oregon, it represents a direct infringement on state's rights. Oregon mail-in voting has an excellent track record. Evidence shows that mail-in voting achieves strong voter turnout, and that it is cost effective and popular with Oregonians. History also verifies that mail-in voting has no effect on the minuscule frequency of voter fraud compared to in-person voting. Continued consideration of this bill is a waste of government time and tax-payer money. Please move on to more substantive issues.
