Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Only citizens of the United States of America and Oregon with Valid I.D. are constitutionally allowed to vote and the state of Oregon government has been undermining that for years and I have no confidence in the vote by mail system anymore because of the actions taken by state of Oregon government. In 2022 a lot of Oregonians may have been expecting clear results at 8 p.m. sharp, the deadline for turning ballots into your county elections office. But Oregon now allows ballots postmarked on Election Day to be counted, instead of only counting ballots that reach elections offices by Election Day. That means final results could be delayed by days, especially in closer races. This is not acceptable. In Florida they don't do vote by mail and within one hour they know the results of the elections in that entire state. Oregon should be the same.
