

Submitter: Thomas Busse

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3598

This bill is identical to HB 3597 and represents lazy lawmaking.

I feel it is important to call out obvious "gut and amend" bills and their sponsors for legislative shenanigans of holding phony public hearings before the public is informed what the bill is really going to be about.

In Oregon, we've seen overreach pushing electric vehicles when the technology is not ready and comes at significant environmental tradeoffs when factoring in lithium mining.
