

Submitter: Dwayne Bush

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB999

We are in support of SB 999 because if our single family homes that we rent cheaply to our long time employees who work for us full time came under OSHA rules and regulations then we would have to tell our employees to move out and find their own residence. I'm guessing that most of them would not be able to afford normal rent and would leave. We would then have no workers and would have to go out of farming.
