

Submitter: Brian Norris

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or Topic: HB3729

Please vote for HB3729 as we will be the LAST state in the Union to lower cremation temperatures to 1600. Not only will it be a safer operating temperature, but it will also greatly reduce natural gas usage, lowering our carbon footprint by 22% PER cremation. This is good for Oregon. Please, vote for HB3729.

Respectfully,  
Brian Norris

Operator of the Newport and Lincoln City crematories.

Thank you!
