Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Do not allow this measure to pass. I pride myself on being a voter, and contributing to the democracy by voicing my choice. It is convenient to vote by mail. There is little to no evidence that vote by mail is a failure or leads to any sort of manipulation of the vote or illegal voting. Please stop wasting time on these ridiculous trivial attempts to subvert the will of the people. I rely on my elected officials to lead, provide reasonable solutions to problems, that when solved, will rise all of the constituents of Oregon. Invest your time to solve big problems, not undo solutions that are working. Sheesh.
