On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2184

Hello, I live in Washington but cross the Hood River - White Salmon bridge to buy things. I'd do that more often, except the bridge is so narrow I think some day I'll knock off a side mirror and have to pay thousands of dollars to fix it. And some day the bridge will just fall down. So replacing the bridge in an orderly, planned way (before it falls down) will let me spend more money at Oregon businesses.
