Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Support SB 210.

As someone who has seen politics change for more than 5 decades, I feel it is important to share this written testimony. My point of view is most likely a popular perspective, considering the times today, in which we live. By that, I mean that there is substantiated evidence that mail-in voting is easier to falsify than in-person voting. In fact, the overwhelming evidence is that in-person voting is the most secure. And, in this age of identity theft and crime waves as never before, we need to ensure safer elections.

Therefore, I urge support of SB 210 in Oregon. Thank you.
