

Submitter:	Maria Leon-Melgar
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB80

I have worked on water quality management issues in many countries. Ground water contamination is a serious issue linked to concentrated animal feeding operations. I'm appalled that Oregon has such lax laws. The industry will take advantage of them with total disregard for public health nor its impact on greenhouse emissions. Oregon has a responsibility to protect the public safety and its natural resources now and for the future. I support this measure while a more comprehensive regulations are established.
