I am writing to urge your support for House Bill 2184, which would fund the Hood River-White Salmon Bridge Replacement Project. As a White Salmon resident and senior I receive medical and dental services as well as my pharmacy medications in Hood River so it is a vital transportation link. Replacing the existing 100 year-old bridge with a new structure, built to modern standards will ensure the safety, resilience, and economic security of Gorge communities & residents like me who rely on it. The bridge is a critical lifeline for our families, businesses, agriculture, and tourism. Thank you for your support.
