

Submitter: Robert Jackson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2467

I work in a 370 program. I see many of the individuals here refuse to participate solely because they are here against their will. I watch their mental and physical health get worse day after day. I do not believe this bill has recipients in mind. This feels like the facilities just trying to keep the beds full for insurance money. Please use your hearts and vote no!!!!!!
