

Submitter: Liza Burney

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Our current vote by mail system is the gold standard for efficiency, ease of use and security. There is no valid reason to change. This proposal for in-person voting, with machines of unknown origin, ownership and security, will only serve to disenfranchise Oregon citizens by creating long lines to vote at limited precincts, with excessive identification requirements. Our current process is excellent and should remain.
