SB210

I strongly oppose this anti-democratic bill. So many Oregonians benefit from mail in ballots; especially marginalized citizens. Not everyone can easily get to a ballot station and vote. People with physical limitations. Senior citizens who are in facilities. Working fathers and mothers with multiple jobs. Lots of people cannot afford a car and public transportation in some places are not reliable or available. Please do not pass this bill. It would hurt so many people in our community who should be able to easily and safely vote. Thank you!
