Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB 210 which would limit vote by mail options in Oregon. Vote by Mail has made voting more accessible to Oregonians, allowing many to vote whose health or working conditions would make it difficult. I truly appreciated this option when I was a working mother with small children. Voting in person would mean rushing to the polls with small children who were tired after daycare or school. Voting in person on only the day of the election will deny many voters, especially the poor and the elderly their opportunity to participate in democracy. I have heard no evidence, only unproven rumors, of election fraud due to vote by mail. Our system is not broken, so please don't 'fix' it!
