

I am horrified that this bill even exists and am writing to voice my severe opposition. Vote-by-mail in Oregon works. It is easy, dependable, valid and checkable should issues arise. Voting by mail allows more people to vote-working people who can't take off from work, single parents who don't have any help from our society to be parents and can't leave their children alone, elderly or disabled people who physically can't stand in line for hours in the pouring rain and cold. Those reasons make it a target for unscrupulous politicians to try to further oppress all voices and disrespect the voters. Stop it. Stop it now. Kill this bill. If you support this bill, you support the rise of authoritarianism in this country.
