

I do not understand why this is coming up. Our voting system is fine the way it is. Mail-in voting has worked for decades. Why are we considering changing the way we vote? Is there not a more pressing matter that needs attention. If the reason is because republicans are concerned about corruption in the voting system, then lets fix it. Let us not go back to the way it was decades ago.

We can be so much better, but unfortunately we continue to argue about the ideologies, and get nowhere. The legislature continues to bring more bills before the house, however, do anything to provide funding for law enforcement to enforce the laws that are on the books already.

I am definitely against “in-person voting on the date of an election the standard method for conducting an election”, as the method of voting in Oregon.
