Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As a fifth generation Oregonian, what I have seen in the last 30 years has made me very sad. We used to be a quirky, fun unusual state filled with farmers and fishermen and loggers and quickly, after mail in voting, became a democrat controlled state. A state that has been driven into taxation doom with progressive liberal ideologies. All of our founders endeavors such as the occupations above have been demonized and shutdown. I've heard of enough instances of dead people voting and the ballot chasing scheme and harvesting done-witnessed it with my own eyes. I want secure, same day, in person voting with required voter ID. It also be my hope we get rid of the vote tally machines too.
