Honorable Senators:

Re: SB 210

I am opposed to vote by mail. I believe elections with mail-in-ballots are far more likely to be compromised. When I have gone to a location monitored by my neighbors, I have observed they demonstrated concern for a valid vote count, and diligence with confirming my identity. I have been voting consistently for five decades, and have personally observed that reality through the decades.

I strongly urge all representatives and senators to support in-person-voting.

Thank you.

John R. Lawton
