SB210

I oppose this bill. I find value in being able to sit down with my ballot and researching the people and and issues I am voting for.

When I was a young adult living in an area that did not have mail in voting, it was difficult to get off work to be able to vote. Disabled people have a hard time physically standing in line to be able to vote.

I didn't like that there were bomb threats last election making people fear going to vote.

I don't think it's necessary to make peoples lives harder for no reason. There is no valid reason for this.
