Mail-in voting is a proven system that increases franchisement of the electorate and ensures the maximum amount of turnout in a nation whose turnout his low. Ending it would be a travesty. Advocates for voter-id and physical casting of ballots in person have no factual basis to stand up except to eliminate votes from people who lack the means or extra effort it would take to cast their ballots in person. Mail-in voting is in the public interest, and I am proud to live in a place that has it.
