Committee:

House Committee On Education

Measure, Appointment or Topic:

HB2583

As a parent of a virtual charter student, I believe every child deserves equal access to education funding, regardless of their school type. HB 2583 ensures students like mine get the resources they need to succeed—just like their peers in traditional public schools. My son learns best in a home environment due to a learning disability. Making sure he has access to all of the same things his public school peers have is important to not just me, but to everyone else who has a child in a similar situation. Let's make education fair for all Oregon students.
