Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting in person with government-issued ID will eliminate voter fraud. One vote per person. No additional votes cast by the same individual, no votes cast by the same individual in multiple counties or states, no deceased voters somehow casting ballots, and no voter turnouts amounting to more than 100%. Anyone who values democracy should want elections to have transparency and integrity, regardless of the outcome.
