Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

How dare you consider going backwards at the behest of a political party that is dismantling our democracy. Making it inconvenient for us to vote is an assault on our right to vote. It is an attempt to silence citizens. You only work for us because we vote. People who have no ability to reach the polls will have no vote and this is absolutely wrong. People who happen to get sick on Election Day will not get to vote. People with janky old cars (like I drive) could have a broken down car and not get to vote. Hell no. Please do not go forward with this stupid proposal.
