

Submitter: Julia Kramka

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Mail in ballots make me a better, more informed, and more intentional voter. Being able to sit down and read in detail about every person and every measure allows me to make an educated vote of every single subject on the ballot, which would not be possible if I were to go in person and need to vote as quickly as possible. I feel that my ballot is secure, and I am not worried about theft or inappropriate ballot use. The vast majority of voters m benefit from mail in ballots and we need voting to be as easy as possible so that more people participate.
